CARD OF THANKS.

S. S. OTTER, Nov. 17th, 1873.

To Capt. Lewis and Officers of the H. B. Co's Steamship Otter:

We, the undersigned passengers on the Otter from Port Essington to Victoria, desire to return our thanks to the Captain and Officers of the ship for their uniform kindness during the voyage.

We also wish to make public the perfect sense of security which we felt under the able and careful guidance of the Captain during a rough and stormy trip.

Risks Accepted at Current Rates of Premium.

WELCH, RITHET & Co.,
Agents for British Columbia
jel1 And Washington Territory.

CONFEDERATION LIFE ASSOCIATION!
OF CANADA.
Head Office, Masonic Hall, Toronto.
CAPITAL.....$500,000.
Stock and Mutual Plans Combined.

Deposited with Dominion Government for Security of Policyholders, $50,000.

PRESIDENT—Sir Francis Hincks, K. C. M. G. Finance Minister of Canada.
VICE PRESIDENTS—Hon. Wm P. Howland, C. B., Lieutenant-Governor of Ontario;
Hon. Wm. McMaster, President Canadian Bank of Commerce;
Issued—Over 500 Policies first half-year.
This Association issues all the most approved forms of Policies—all non-forfeiting by charter. Its principle of non-forfeiture more favorable to assured than that of any other company.
A strong company which combines strength of capital, character and local influence and provides life insurance at the lowest safe rates without delusive promises of dividends, making a good dividend CERTAIN by decreasing the premium.
By its organization it enables each policyholder to deal with his own neighbors, stockholders in the company—men whom he knows will do justice to his family after he is dead, and also provides that its funds will be invested to develop the resources of his own country and locality.
A company with capital and breadth enough to be safe beyond question, with national extent and prestige, and yet a HOME company throughout the Dominion.

WILLIAM McCABE,
General Manager, Toronto.

Daily British Colonist.

TUESDAY MORNING, NOV'R 25TH, 1873.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorized Agent in San Francisco.

Did You Ever? No, I Never!

In noticing, a day or two ago, the extraordinary "flop" made by our local contemporary on the tariff question, we expressed doubt as to the genuineness of the conversion. Since then it has amply justified that doubt. It will be remembered how, during past years, it contended that the local Legislature had the power and right to deal with the question, a power which it insisted upon even during the very last session. Notwithstanding its well-established reputation as a contortionist, it was, therefore, rather startling to find it on Tuesday last, making the following declaration in its leading article:—

"The matter is now entirely beyond their jurisdiction, nor do we think it would be prudent on the part of the local House to take any action with reference thereto."

But there is another passage in that leading article which we cannot resist the temptation of presenting to the reader in juxtaposition with a passage from its leading article on the same subject in its yesterday's issue:—

Standard of 18th.

"If anything can be effected, it must be by our representatives in the House of Commons, and we should imagine that no more favorable opportunity is likely soon to offer than the present, when the new Government will feel disposed to make things as agreeable as possible to our representatives, not only for our sakes, but for their own as well, to urge the claims of our farmers to have the tariff so modified as to give them at least a fair chance to hold their own against foreign competition in the markets of their own country."

Standard of 24th.

"We have a new set of men at the head of affairs at Ottawa, men not at all so likely to entertain a proposition of the nature under consideration as their predecessors would have been, for the reason that having found the Canadian tariff in operation in British Columbia when they took office, and that by the free choice of our own local representatives, they will prefer letting things remain as they are rather than to upset existing arrangements. For this reason we do not think it would be prudent on the part of the local House to take further action in the matter."

It would be impossible to conceive of a more palpable contradiction. The very circumstance which on Tuesday was to encourage British Columbia in asking for a modified tariff, in less than a week transformed into a bar to all hope! Reader, did you ever witness such tergiversation? No, never. It will be observed that on one point the contortionist has remained steadfast for nearly a week, viz—the imprudence of the local Legislature meddling with the tariff question at all. Reader, there is a "skeleton" under that, depend upon it.

The Virginius Affair.

In order that our readers may clearly understand the nature of the Virginius affair, which is likely to cost Spain the possession of the Island of Cuba, we would state that the captured steamer (originally called the Virgin) was built on the Clyde in 1863 to run the American blockade, which she did successfully several times. She was finally captured, her passengers and crew subjected to slight punishment, and the ship confiscated. In 1869 the Virginius was bought to run the blockade of the rebel ports of Cuba, and until her capture by the gunboat Tornado, a few days ago, she was engaged in that business. The execution of her officers, passengers and crew appears to have been an act of cold-blooded atrocity, which, when compared with the mild punishment with which blockade-runners were visited by the United States Government, seems all the more atrocious. The Virginius' people were rebels and blockade-runners. The people who manned the ships that were engaged in contraband trade during the American war were also rebels and blockade-runners. The instances and circumstances are identical; and the time would seem to have arrived when the powers interested should unite in putting an end to the merciless slaughter of human beings which has so long gone on in Cuba. Humanity cries aloud for the suppression of the slaughter.

British Rights in Alaska.

TO THE EDITOR OF THE GLOBE.—The north-western rivers opened to Britain by the Washington Treaty are, as you say, poor streams compared with the St. Lawrence; but as a matter of geographical correctness concerning a part of the empire not much known, I ask leave to mention that, though the Youkon and Stikine rise far to the north, near what may be called the Arctic slope, and traverse for long distances a country with a severe climate, they in fact flow in westerly and south-westerly directions, and finally enter the North Pacific Ocean, which resembles the German Ocean in temperature. Icebergs, as you are aware, do not float south through Behring's Straits, and the whole North-West coast from Behring's Straits to Vancouver Island is moist rather than cold—less cold than between the same latitude on the North-West coast of Europe. The Stikine gives access from North Pacific Ocean through Alaska to the British territory behind it, 30 miles from the coast, and has been used this year in communication with the newly-discovered Dease Lake Canadian gold mines.

GILBERT MALCOLM SPROAT,
Agent-General for British Columbia.
4, Lime-street square, Oct. 17th.

ABYSSINIAN ATROCITIES.—Kassa, Prince of Tigre, now Johanni II., Emperor of Abyssinia, had, according to a correspondent who writes from Massowa, captured the pretender to the throne, Abba Kassai. This gentleman's ears were filled with gun-cotton by Johanni's orders, and the cotton was then exploded, blowing the head to atoms. Could any more horrible atrocity have been devised? But this crowned and holy-oil-anointed miscreant, is (says the correspondent) notorious for his ferocious acts. It is reported that he lately caused the right hands and the left feet of no less than twenty-seven captives to be chopped off in his imperial presence, and then abandoned them (after the fashion of the Roman Emperors) to be preyed upon by lions, tigers and panthers.

IN 1871, two persons were killed in England by the sting of a wasp, and two more by the bite of a rat, while the death of one infant is attributed to circumcision.

Worn to a Shadow.

Flesh, muscle and mind alike deteriorate when the stomach falters in its duty and the bowels do not perform their part as scavangers of the system regularly and naturally. In chronic dyspepsia the body is usually emaciated, and the muscular fibre loose and flabby, and the brain incapable of prolonged or vigorous exertion. Every organ, every member even the immortal mind itself, is to a certain extent dependent upon the stomach for support. Strengthen and regulate the feeder of the system with Hostetter' Stomach Bitters, when it fails to perform its function properly. A good appetite, an increased flow of the gastric juice, and perfect digestion and assimilation will surely be the result. The manner in which the great tonic and alterative effects a cure of dyspepsia is direct and simple. It stimulates the digestive organs, cleanses without convulsing the bowels, regulates the flow of bile and determines it into the right channels and exercises a tranquilizing influence over the nerves.

THE FIRST—THE LAST—THE BEST.—The London House received by the Prince Alfred, yesterday, a large shipment of winter goods, direct from the European manufacturers by rail and steamer. They are the first new winter goods in this market. They are the last styles and fashions. They are the best in material and make. It will be quite unnecessary to advise the ladies to go and see the beautiful goods. *

VICTORIA WATER WORKS
TENDERS WILL BE RECEIVED UNTIL **15th December, 1873,** for the following Wrought Iron Pipes for supplying the City of Victoria with water:
15,000 feet No. 14 Iron, more or less;
13,000 " 16 " "
The above pipes to be not less than 11½ inches in diameter (internal), double riveted, with collar and sleeve, all coated with asphaltum and coal tar as approved, and guaranteed to stand a vertical pressure of 400 feet.
The tenderer to include cost of all material and labor, pipe-bends, cartage of Pipe and distributing the same along the line, laying and jointing pipe and fitting on twelve air valves and two gate valves (to be provided by the Commissioner), and to provide for tapping the pipe where directed, but exclusive of excavation for pipe.
Every facility to be given the Commissioner or his agent to inspect the pipe, both before and after being coated, and to have the privilege of rejecting any that may be considered unfit for use, either from rust or other cause.
Payments will be made as follows:—On or after the 1st July, 1874, fifty per cent. on the pipe manufactured; twenty-five per cent. on the completion of the laying of the pipe; and the remaining twenty-five per cent. when the water has run through the pipes successfully for thirty days.
Plans showing levels on line of Pipe can be inspected at the office of the Commissioner each day, and any further information, together with forms of tender, supplied on application.
Each tenderer to hand in the name of two bondsmen who are willing to become security for the faithful performance of the work, to the extent of half the contract amount.
The lowest or any tender not necessarily accepted.

By order of the Mayor and Council,
WM. LEIGH, C.M.C.
City Clerk's Office, Oct. 31, 1873. no1

ANNO TRIGESIMO SEPTIMO.
The Corporation of the City of Victoria
A BY-LAW
To provide for the Construction of a Municipal Hall and other Buildings requisite for Corporate purposes.
NOVEMBER 19th, 1873.
WHEREAS IT IS EXPEDIENT TO CONstruct a Municipal Hall and other Buildings for the convenient transaction of the business of the Corporation:
And whereas to enable the Mayor and Council to construct such Municipal Hall and Buildings, and to purchase a Site therefor, it will be necessary to borrow the sum of money hereinafter mentioned and to levy rates for the repayment thereof with interest.
And whereas this Bylaw is intended to create a debt of the amount of Sixteen Thousand Dollars for the objects hereinbefore mentioned.
And whereas the total amount required to be raised annually by special rate for paying the debt so to be created and interest, in conformity with "The Municipal Act Amendment Act, 1873," is Two Thousand Two Hundred and Forty Dollars.
And whereas the amount of the whole Rateable Property of the Municipality, according to the last revised Assessment Roll, is Two Million Four Hundred Thousand Dollars.
And whereas an annual Special rate of cents on the dollar for paying the interest and creating an equal yearly Sinking Fund for paying the principal of the new debt intended to be hereby created according to the said Act will be required,
Be it therefore enacted by the Mayor and Council of the Corporation of the City of Victoria, as follows:
1. It shall be lawful for the Municipal Council of the said City to accept, purchase and hold so much land within the City Limits as they shall deem necessary or expedient as a Site for a Municipal Hall and other Buildings requisite for Corporate purposes, and to contract for and cause to be constructed such Municipal Hall and other Buildings, subject to the provisions herein contained.
2. For the purposes hereinbefore mentioned it shall be lawful for the Municipal Council of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of Sixteen Thousand Dollars.
3. It shall be lawful for the purposes aforesaid for the Mayor and Council of the said City to issue Debentures of the said Corporation of the City of Victoria to be called "Municipal Hall Debentures," each for a sum not less than Fifty Dollars and not exceeding in the aggregate ($16,000) Sixteen Thousand Dollars, which Debentures shall be made payable within a period of Twenty years at furthest from the day on which this Bylaw takes effect, and shall bear interest at a rate not exceeding Nine per centum per annum, such interest to be payable half-yearly, and such Debentures shall be signed by the Mayor and Clerk of the Municipal Council for the time being, and shall be sealed with the seal of the said Municipal Council.
4. For the purpose of providing a Sinking Fund for the payment of such Debentures as aforesaid and the half-yearly interest thereon, an annual Special Rate of One-Tenth of One per cent on the aforesaid value of Real Estate, according to the Municipal Assessment Roll, 1873, in addition to all other Rates, shall be raised, levied and collected upon all rateable property within the City Limits in each year until the whole of the said Debentures shall have been fully paid off and redeemed.
5. This Bylaw shall take effect on and from the 31st day of December, 1873.
6. This Bylaw may be cited for all purposes as "The City Hall Bylaw, 1873."
Passed the Municipal Council this 19th day of November, 1873.
WM. DALBY, Mayor.
WM LEIGH, Clerk to the Municipal Council.

TAKE NOTICE,
That the above is a true copy of the proposed By-Law upon which the vote of the Municipality of the City of Victoria will be taken on the question, aye or no, whether the said By-Law shall be confirmed; and the Poll will be taken on December the 10th, 1873, at the following named places:
For Yates Street Ward, City Council Chambers, Broad Street; for Johnson Street Ward, Johnson Street, near Government; for James Bay Ward, Government Street, near Broughton.
The Poll will be kept open from 9 o'clock, a.m., until 4 o'clock, p.m.
Excerpt from Sec. 2 of the Municipality Act, Amendment Act, 1873, is hereby published for general information:
"Any male, or female, being of the full age of twenty-one years, who is rated upon the Assessment Roll of the Municipality, and who has paid, not less than *ten days* previous to the time of the Election, all Municipal rates and taxes payable by him or her, shall be entitled to vote, in any Ward in which he or she may be registered as a ratepayer." no22

BIRTHS.

At the Alders, Nov. 23rd, Mrs. J. W. McKay, of a daughter.

THE PRELIMINARY FARCE.—Last evening the members now in this city received circulars from the Provincial Secretary's office, inviting information as to the wants of their respective Districts, for the use of the Government in framing the Estimates. In so far as concerns those members residing at a distance from the capital or who would desire to confer with their constituents at a distance, these circulars come too late to be of any service. And yet there is nothing lost; for if the reader will recollect how the recommendations of members were treated last year, it will readily be conceded that these circulars were as well in the Provincial Secretary's waste paper basket. And yet it will be well for members to respond to the invitation, inasmuch as it will doubtless devolve upon a new Ministry if not to frame at any rate to revise the Estimates for 1874.

BULLY FOR SIR HUGH!—The Ottawa *Free Press* of the 10th inst. says: "The Pacific Railway trouble is not yet at an end; as Sancho Panza would say, "the tail still remains to be flayed." It appears that Sir Hugh Allen is now entering actions against the several Directors of the Board to compel them to "shell out" their proportion of the expenditure incurred in obtaining the charter. This action of Sir Hugh will give rise to a series of interesting cases which may possibly result in fresh and important developments.

NEWFOUNDLAND.—The elections commenced on the 3rd inst. but the result had not transpired. The Opposition seemed confident of success, and would doubtless give the Government a close run. Mr. Bennet, the Premier, although 80 years of age, is described as displaying all the energy and activity of youth in the election canvass. He was standing for two constituencies, one of which he was sure of; the other he proposed wresting from the Opposition.

LOOKING AHEAD.—The *Mail* alleges that the Legislature of Nova Scotia withheld for two sessions the County Court Bill, in order that the patronage consequent thereon might fall into the hands of the Reformers, and the consequence is that Mr. Mackenzie will now have the appointment of nine County Court Judges, to say nothing of the vacancies in the Supreme Court.

PROBABLE DISSOLUTION.—The Ottawa *Free Press* of the 10th inst. says: "It seems generally understood now that a dissolution of Parliament will take place before the next meeting. A general election would, no doubt, result beneficially for the present Government, and would be very satisfactory to the country. It must be regretted, however, that the Election Law, as prepared by Mr. Blake, is not in force."

THE disaster by which the Canadian steamer Bavarian was consumed on Lake Huron with 14 lives, occurred in this singular manner: The walking beam of the engine broke in two and crashed through the deck, striking in its descent some barrels of spirits. The fluid ran into the firehold, and in an instant the ship was enveloped in flames.

QUARTZ MILL COMPANY.—An American Company has been formed and will immediately erect a quartz-mill in the vicinity of Kamloops Lake, where rich deposits of silver ore have been discovered; provided the Government can be induced to give a satisfactory title to the land.

THE Lane & Kurtz Co. have imported a Cameron Steam Pump. Steam Cylinder, 18 by 36 ft.; water cylinder, 12 by 36 feet; capacity, 1200 to 2400 gallons per minute. They forward it per steamer Enterprise to-day, and intend to push the works this winter.

FROM SAN FRANCISCO.—The steamship Prince Alfred, Capt. Sholl, 90 hours from San Francisco, arrived yesterday morning, bringing 70 passengers and 221 tons of freight. We are indebted to Purser Douzel for usual favors.

THE PILOTAGE QUESTION.—The case of the Pilots against steamship Prince Alfred, for non-payment of pilotage, was resumed yesterday. Pilot Kirk's evidence was taken when further hearing was put off until to-day.

CORN MILL.—A corn mill for Chadsey Bros. of Sumas, was brought up by the Prince Alfred. This firm is among the most enterprising firms in the Province.

THE City Lamplighter was thrown from his wagon on Wharf street yesterday. He *lighted* on his back but escaped with *light* injury.

INSPECTOR OF POST OFFICES.—Mr. Robert Wallace received his commission yesterday. It is accompanied by instructions for him to proceed to Ottawa. He will sail to-morrow.

THE VIVIAN COMPANY performed at Nanaimo on Saturday night to a crowded house in the Institute. They were to give performances on Monday, Tuesday and Wednesday nights.

THE AUSTRALASIAN MAIL SERVICE.—The London *Times* of the 31st ult. gives some interesting particulars respecting the new steam service to Australia. Arrangements have been completed for a regular mail steamer service between San Francisco and Sydney, the contractors being put under heavy penalties to perform the voyage in 25 days. A subsidy has been granted of £80,000, half of which will be paid by New South Wales, and the other half by New Zealand. Four screw steamers are to be built for this purpose, two of 2,800 tons and 500 horse power each, made by John Elder & Co., Glasgow, and two of 3,130 tons and 600 horse-power, made by Mr. James Laing, of Sunderland, guaranteed speed being 12 knots. The first of these is to be ready by the 1st of October next, but, as the service is to commence at once, a fleet of four new ships, the Mongul, the Arthur, the McGregor and another have been chartered for the purpose.

THE POPULATION BASIS.—The *Globe* intimates that a seat in the new Cabinet was given to Prince Edward Island in consideration of the largeness of the population. The population of the little island is understood to be in the immediate neighbourhood of one hundred thousand. According to this theory it will be some time before the Pacific Province can claim a seat; but we must question the soundness of the principle as applied to Provinced representation in the Federal Cabinet. Doubtless population should constitute one element in the basis of representation in the Cabinet as well as in the Commons; but there are other essential ingredients, such, for instance, as brain's and territorial importance, which ought not to be overlooked, especially in the present stage of empire.

SANDWICH ISLANDS.—The total number of lepers at the settlement is 797; 45 are school children, 3 foreigners and 5 or six Chinamen....Angora goats have been introduced....The palace of Her Excellency, R. Keelikolani, Governess of Hawaii, has been destroyed by fire.... Heavy rains have been falling for some time past at Oahu. The rainy season has now arrived....The unsatisfactory reports in regard to prices of sugars in San Francisco have stopped shipments. The D. C. Murray, according to the *Advertiser* left without one pound of sugar.

WASHINGTON TERRITORY.—The Seattle *Intelligencer* announces that the Seattle gasworks will be in active operation next month....The Peruvian ship Bengola has put back to Port Townsend, having lost sails, deckload snd shipstores when off Cape Flattery....Mr. P. K. Hubbs is dangerously ill on Orcas Island.....The Olympia *Courier* learns that Gen. Sprague was indicted by the Grand Jury for granting permits to cut timber on the odd sections of Government land.

THE EXPEDITION AGAINST THE ASHANTEES.—LONDON, Nov. 18.—The latest dispatches received at the War Office from Sir Garnett Wolseley, commanding the expedition against the Ashantees, give favorable accounts of its progress, and express strong hopes of success. The General writes exultantly of the excellent moral effect on the troops of the recent skirmisher with the savages.

MANITOBA.—A despatch dated Fort Garry, Nov. 6th, says: The Local House opened on the 4th inst. The Governor's speech referred chiefly to the enlarging of the Province, now under discussion. Attorney-General Clarke introduced yesterday, as Government measures, Bills for the incorporation of Winnipeg, and representation by population. Mr. Hay, leader of the Opposition, give the Bills his support. Mr. Clarke says he stands or falls by them.

CONTINUED CANNONADING AT CARTAGENA.—LONDON, Nov. 14.—A Cartagena dispatch says: Cannonading continued all day yesterday, notwithstanding a violeat storm. The city has received a fresh supply of provisions and amunition. The British Consul is the only reprerentative of a foreign government who remains in the place.

THIS EVENING'S LECTURE.—The first lecture of the season on the "Spirit of the Age" will be delivered this evening Mr. W. Bull. We have little doubt the subject will be well handled. A. R. Robertson, Esq., will occupy the Chair. The lecture commences at 8 o'clock.

ATKINSON LIGHT-HOUSE.—Tenders are invited by the Federal Government for the erection of a lighthouse at Point Atkinson, Burrard Inlet. We are quite sure the authorities have acted wisely in selecting Point Atkinson instead of Passage Island, as was first intended, for the site of the light-house.

C. P. R. S.—Mr. Jarvis, Mr. Rheaume, Mr. Annington and Mr. Perry of the C. P. R. Survey Corps start for home to-morrow. Mr. Rheame was with Mr. Moberley through all his work, having left Victoria for the Mainland with the first party fitted out in July, 1871.

THE overland mail came last night by the steamer Eliza Anderson. The steamer brought 30 passengers and a number of beeves and hogs. She will sail again at 11 o'clock this morning.

BARK SYLHET will commence discharging cargo at 7 olock this morning, on Janion, Rhodes & Co's wharf.

CRANBERRIES.—Mr. Charity disposed of his cranberries at San Francisco at $12 per barrel,—clearing a handsome profit.

AT the Municipal Police Court, yesterday, Mr. Elliot disposed of 3 or 4 drunks.

THE Prince Alfred will sail at 10 o'clock to-morrow morning for San Francisco.

GENERAL RYAN, who commanded the Virginius Expedition was a Canadian.

DIAMONDS have been discovered at Hemboldt, in Northern California.

☞ For bargains in Clothing (both over and under) in Hand Knit Socks, in Felt Hats, in Myrtle Navy Tobacco, go to J. H. TODD's Canadian Store, Yates street near Wharf. N.B.—Remember, no 15 per cent. duty to pay there.

A. GILMORE has just received a large assortment of Canadian and English Custom-made Clothing, which he will sell at Reduced Prices; therefore the public are invited to call and select for themselves and make their purchases before going elsewhere.

The Virginius Tragedy.

Our American exchanges are filled with statements respecting this terrible affair. War is imminent.

Excitement in Kingston, Jamaica.

A dispatch received in Washington this afternoon, from a gentleman who just arrived from Kingston, says great excitement and indignation prevails in the latter place in consequence of the capture of the Virginius, and the execution of her officers and crew. Several of those on board the Virginius were known to be British subjects. When he left two English war-vessels were expected to sail immediately for Santiago de Cuba. No executions of British subjects have been reported at Kingston, up to the time he sailed.

Minister Thornton has telegraphed to his Government a despatch received from the Consul at Havana, relative to the execution of British subjects in Cuba. Considerable feeling is manifested among the attaches of the British Legation at Washington. They assert that no time will be lost in despatching British naval vessels, several of which are now known to be in Kingston, to Santiago de Cuba, to investigate matters.

It is ascertained that there were twenty-three British subjects on board the Virginius, all told. This is probably in excess of the number of American citizens, though the exact status of all the prisoners cannot be determined at this time. The Government, however, has a full list of the officers, passengers and crew.

The "Thunderer" on the Outrage.

The London *Times* of this morning (Nov. 17th) in a leading editorial, says: If the Virginius affair had occurred during the ascendency of the Democratic party in Cuba, it would doubtless have been immediately annexed. It draws a contrast between the conduct of the Spaniards in Cuba and the lenient treatment by the American blockade runners during the Rebellion. If England is called upon to act, in consequence of the execution of any of her own subjects, there is no reason why she should not acknowledge the independence of Cuba, especially if the act would check such outrages in the future. It recommends the adoption of that line of policy by us. The *Telegraph* contains an article similar in tone to that of the *Times*. Both journals concur in the opinion that Spain is powerless to enforce reparation, and that the U.S. may possibly be compelled to intervene, even though reluctant to do so.

A London dispatch says it is stated on official authority that the English Foreign Office has instructed the British Minister at Madrid and the Consuls at Havana, Santiago and Jamaica, that the Government reserves its decision on the question of executions which have already taken place at Santiago, but will hold the Spanish Government and all concerned responsible for any additional executions of British subjects.

NEW YORK, Nov. 16—Secretary Belknap was in New York yesterday. He has left for Washington. In the evening he was visited by a great number of military men, with whom he had a conference. To one of these he remarked: "You are aware that I have been considered somewhat bloodthirsty in this matter, but the entire Cabinet are of my mind. At the Cabinet meeting on Friday we were a unit, and if the American people are not satisfied with the measures resolved upon at that meeting to vindicate the national honor, they must be very hard to please." He absolutely declined giving any information regarding his visit here, but it is believed that it is in this connection that the military and naval preparations now being made are in view of the contingency of war.

NEW YORK, Nov. 17—There was an unusually large attendance at Plymouth Church, Brooklyn, last evening. The scenes during that part of the sermon in which Rev. Henry Ward Beecher alluded to the recent butcheries in Cuba, forcibly reminds one of old times, before the war, when Beecher's voice was often raised against oppressive slavery in that section. When he spoke of the long struggles of the little bands of Cuban patriots that had so persistently resisted all the forces that Spain could bring against them, and said such heroism deserves at least a recognition, the enthusiasm of the audience could no longer be restrained, and they broke forth in long continued bursts of applause, the ladies waving handkerchiefs and appearing as earnest as the men. Again, when Beecher hoped this Government would proceed in this matter with all moderation, and that nothing would be done rashly, but that after an appeal to Spain for justice, if that nation should appear that she lacked the force to do it, then, said Beecher, solemnly, let the justice of the nation fall. The enthusiasm of the audience here broke out afresh, and with like disregard and recklessness as to time and place. Their enthusiasm showed how much they were in sympathy with the speaker.

The following is a special to the New York *Times*:

HAVANA, Sunday evening, Nov. 16th.—The most remarkable feature of the capture of the Virginius was the absolute non-resistance of her crew when overhauled by the Tornado. But one account of the chase and capture has been made public.

This fact was gleaned from Spanish sources, for the men on the Virginius were not allowed to speak, and it is a question for the future to decide whether the few who still survive the Spanish butchery will ever have the opportunity to give their version of the gloomy tragedy to the world. Some additional facts have come into the possession of your correspondent. The Tornado, which made the capture, was cruising on the 31st of October, under sail, about eighteen miles from the Cuban coast. In the afternoon she sighted the steamer about six miles distant, heading toward her. The Captain at once ordered steam to be got up, and soon observed that the strange steamer had altered her course and headed for the coast of Jamaica, distant about one hundred miles. The Spanish captain at once suspected from this unusual proceeding that the steamer was the Virginius. He ordered the engineers to get up all steam possible, even if they burst the boilers, and to drive the engines at the utmost speed. She gained steadily on her, but as night was coming on, the Spanish captain feared he should lose sight of the vessel. The moon rising, however, he was enabled, by keeping all hands on deck, at the mast-head, and in the rigging, to keep a sharp lookout. The vessel was kept sight of until the corvette had neared her sufficiently to bring her guns to bear on her.

The fugitive steamer was now making every endeavor to escape. Her cargo was rapidly being thrown overboard. Boxes, bales and other material floated past the Spaniard. A shot was fired, but the stranger made no reply, and four others were fired in succession. The last shot was fired when immediately the steamer, which had led the corvette a chase of nearly eight hours, hove to. Two boats were lowered, manned and pulled alongside.

The boarding of the steamer was easy. It was now discovered, beyond doubt, to be the Virginius. They took possession of her by hauling down the American flag, which the Virginius had displayed throughout the chase, and hoisted the Spanish flag instead.

Dominion Mail Summary.

OTTAWA, Nov. 11—Mr. Scott has taken temporary charge of the Post Office Department. D. A. McDonald is to be transferred to the Ministry of Militia, and Ross to the Presidency of the Council.

Tupper intends to remain at Ottawa and practice his profession.

Mr. Letellier de St. Just will probably propose next session a complete and comprehensive system of immigration, based upon the wants of the different sections of the Dominion, and taking into account the nature of previous settlements.

Appointments in the *Gazette* extra are all dated on the day the Government resigned except the three first.

The business of the country having been set in good working order, several Ministers have left for their constituencies.

An entertainment to Sir John on Thursday evening will take place at Rideau Club; it is given by his personal friends.

The British Columbia Members still linger around Ottawa.

It is said the Hon. R. W. Scott will go into the Senate.

The rumor that Sir Hugh has decided to sue his fellow directors for their share of what he spent in securing the Pacific Railway Charter, is repeated with every probability of its correctness. There is likely to be some more interesting developments.

The Canadian party in Manitoba have gained their point in securing the incorporation of Winnipeg and a readjustment of the local constituencies. The new allotment will secure the return of eighteen English to six French representatives.

The *Citizen* of last evening says the new Government are willing to allow the appointments of the Lieut.-Governor and Judges to stand, but demand the cancellation of all the others.

TORONTO, Nov. 11 — Lieut.-Governor Crawford is to be sworn into office at 3 o'clock this afternoon.

The Ontario Government hold a Cabinet meeting this afternoon. Among other questions likely to come up will be the question of Scott's successor in the Cabinet. Should Fraser, of Brockville, be asked to accept and consent, he will probably be sworn in at once.

It is generally admitted by all parties here that Sir John's prospect of returning to power are rather distant. Some of Sir John's friends say he intends settling in Toronto with a view of conducting a law business. Some Kingstonians aver that it would be impossible for Sir John now to be elected for Kingston and that in the event of a new election Sir John will be a candidate for one of the divisions of this city.

MONTREAL, Nov. 11—Stephenson, a very respectable clerk, has been arrested for stealing quantities of goods from Hall's hardware store. The prisoner pleads "guilty." He belongs to a titled English family. Drink has effected his ruin.

STAYNER, Nov. 11—A fire occurred here early this morning destroying the station on the Northern Railway, Randolph's saw mill and lumber yard, Summerfield's hotel and four houses. Loss estimated at $200,000.

Canada.

OTTAWA, Nov. 18.—The conflict between the new Ministers and the Governor-General, has at length terminated in favor of the latter Mackenzie insisted that all the appointments made by the outgoing Government since the since the 13th of August, should be cancelled and Lord Dufferin refused. The new Ministry tried to compromise by agreeing to let the appointments of the Lieut-Governors of Ontario and New Brunswick and the two Judgeships stand if he would cancel the minor appointmenis, some one thousand in number. He refused, and Mackenzie finding he would either have to resign or back down, allowed the appointments to be gazetted today.

OTTAWA, Nov. 19.—The Opposition papers having circulated a rumor that differences exist between the Governor-General and the new Ministers, an answer is given on the authority of the Ministry, that the statement is untrue and without any foundation. It has been discovered that the outgoing Ministry, a few hours before resigning, made one hundred official appointments on largely increased salaries, that of the Customs Service alone being increased $7,500. As far as known only one or two of the new Cabinet Ministers is threatened with opposition to his re-election.

Careful compilation shows that there will be seven and a half million feet of white pine taken out of the Ottawa lumbering district this season, against twelve and a half last year. There will also be at least two and a quarter million feet of red pine taken out. Wages have been reduced from five to ten dollars per month from last year's rates, but provisions are cheaper.

ST. JOHN, N. B., Nov. 14.—Evening.—A fire broke out this evening in Allen's foundry, at Carleton, on the west side of the harbor and continued to burn fiercely. The foundry and some twenty dwellings are entirely consumed, rendering 30 families homeless. Steam fire-engines have been sent from St. John to assist in subduing the flames. A strong westerly wind is blowing, the tide is falling, and fears are entertained that the water will leave the slips before the fire can be got under control. The loss will be heavy.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony.

DELAYED DISPATCHES.

Europe.

CHICAGO, Nov. 21—The *National Republican* at Washington will publish to-morrow special dispatch from Madrid, that the feeling amongst the people as exhibited by outbursts of passion on the streets, indicate the most excited vindictiveness towards the United States. The mob, inspired by this feeling, and infuriated by the public press, which demand that Sickles' passports be returned to him, collected before the U.S. Legation and threatened Sickles with violence. The authorities dispersed the mob. Fears are entertained by the friends of Castellar that if he makes satisfaction in the Virginius case, the Government will be overthrown.

Another dispatch from Madrid says a second attempt was made to assasinate Sickles, and that he was wounded. His position is very uncomfortable, but he says he believes the Spanish authorities are able to protect him.

LONDON, Nov. 20—The Directors of the Bank of England have fixed the rate of discount at 8 per cent.

PARIS, Nov. 20—Immediately after adjournment of Assembly last night, the members of the Cabinet tendered their resignations, but McMahon refused to accept them.

MADRID, Nov. 20—The situation of affairs between Spain and the United States is very grave. A serious misunderstanding has taken place between Minister Sickles and the Spanish Cabinet. When Secty Fish telegraphed the news of the execution of the Virginius people, Sickles demanded a stoppage; the Foreign Secty answered that he did not believe the report, and questioned Sickles' authority to act. Sickles then, in the name of the United States, protested against the inhuman butchery and insult to the American flag, and demanded that Spain should enforce obedience to her orders in Cuba. The Spanish Minister declined to permit Sickles to discuss the municipal affairs of Cuba. The interview ended angrily. Sickles says he does not see how war can be avoided, as Spain will concede nothing.

BAYONNE, Nov. 21—Don Alphonzo, brother of Don Carlos, has been appointed Generalissimo of Carlist forces.

Canada.

QUEBEC, Nov. 19—Five inward bound ships are ashore at St. Anne. Other disasters are reported on the north shore. No particulars. There was a ship wrecked during yesterday's storm. Crew saved.

The steamer Quebec, for Montreal, turned back and went into winter quarters. She reports the river full of ice.

English Mail.

Mr. Grace, the great cricketer, was married at Brompton, on the 10th inst., to Agnes, daughter of William Day, Esq.

Two Jewish ladies recently passed a government examination in Rome, and obtained certificates to enable them to become teachers in a communal school. This fact is noteworthy, in so far that this instance is the first of that kind that has ever occurred at Rome.—*Jewish Chronicle.*

The friends of Mr. Henry James Cochrane, who was recently fined £150 by the Lord Chief Justice for contempt of court, published in the *Cheltenham Chronicle*, have subscribed the whole of the fine. The total amount subscribed is £162, and the list is now closed.

Captain Hon. F. L. Wood, R. N., second son of Lord Halifax, is dead.

A passenger train on the Swansea Vale Railway came into collision with a mineral train. Nearly 30 persons were more or less severely hurt, one woman, it is feared, mortally.

The cashier of the London Mansion-house Police Court has disappeared, and, in consequence of defalcations appearing in his accounts, a warrant has been issued for his apprehension.

It is stated by a correspondent that typhoid fever has broken out at Sandhurst College, which he attributed to defective drainings.

The elections in Austria were proceeding, and in Bohemia and Carinthia the returns are more favorable to the Liberal party than they were at the last election.

Sub-Lieutenant Renwick, who was recently sentenced to 10 years' penal servitude for gross misconduct towards boys of a training ship, has effected his escape from the ship Royal Adelaide, where he was confined, and has not yet been recaptured.

The Flood at St. Petersburg.

NEW YORK, November 6th.—Foreign papers received contain some particulars of the inundation at St. Petersburg by the overflowing of the Neva, October 14th. The weather had been unusually warm during the day. At sunset, it became evident that a storm was approaching, and toward 7 P. M. it blew a hurricane. The water rose rapidly, and the lower parts of the town were completely flooded. At 2 A. M. the waters was almost ten feet above the usual height, so that it flowed into many streets which had not been submerged since the great inundation of 1824. Some of the thoroughfares were literally converted into rivers. Trees in public gardens were broken or uprooted; ships in the river were torn from their anchors and thrown against the floating bridges, all of which were more or less damaged. The telegraph communication was suspended, posts thrown down, and the wires torn away. At Extremay, Vassille, and Ostroff, several calling ships were floated into the streets; wooden pavements were destroyed, fences were carried away, chimneys thrown down and roofs torn off. The poor people were panic-stricken, and many were obliged to abandon the little property they possessed, being only too glad to save their lives. Some were taken off in boats. The Zoological Gardens were completely under water, and the proprietors had great difficulty in saving the animals.

The effects of the storm were felt for many miles around St. Petersburg. There were no less than four fires, and the Police-Master was at his wits' end, as one disaster after another was reported. Soon after 2 o'clock the wind veered to the North, and the current being no longer impeded, the water fell as rapidly as it rose. The loss of property was immense, but it is believed in St. Petersburg that no lives were lost.

AN inscription on a tablet, recently put up in a rural church is amusing. It ends:

"He was neglected by his doctor,
Treated cruel by his nurse,
His brother robbed his widow—
That makes the matter worse."

Vice-Admiral Sir Rob't. M'Clure.

Vice-Admiral Sir Robert McClure, the Arctic explorer, died recently in London. He was born in Wexford, Ireland, Jan. 28, 1807, was educated at Eton, and subsequently sent to the military college at Sandhurst, whence he deserted and went to France. He was next place in the British naval service, served ten years on various stations, and in 1836 accompanied Sir George Back on his second expedition to the Arctic regions. In 1848 he accompained Sir James Ross on his voyage in search of Sir John Franklin, and the year following was made Commander. 1850 he entered on the voyage which secured him lasting fame as the discoverer of the Nork-west passage. He left Plymouth in command of the Investigator, which was provisioned for three years and had a complement of sixty-six men, under orders to pass through Behring's Straits, and thence, if practicable, proceed to Melville Island—an achievement which had not been accomplished by any vessel. Capt. McClure spent nearly four years this time in the Arctic regions, during which he made search for traces of Sir John Franklin, still keeping in view his purpose of reaching the Atlantic from the Pacific Ocean by sailing around the seas which form the northern boundary of this continent. After meeting with perils, and displaying remarkable fortitude, he succeeded in accomplishing his purpose, and arrived in England in September, 1854. He was treated with marked distinction on his return, received the reward of $25,000 offered for his discovery and subsequently was knighted and made Vice-Admiral.

Two young ladies and Thadduns O'Grady were conversing on age, when one of them put the home question. "Which of us do you think the elder, Mr. O'Grady?" "Faith," replied the gallant Irishman, "each one looks younger than the other!"

Dentistry.

C. Francis Barnard, M. D.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

OFFICE AND RESIDENCE—Douglas Street, between Dr Powell's premises and Willson's Tea Store. Busines hours from 8 a m till 5 p m.

Medical.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Crump Rheumatism, Neuralgia, Cough, Hysteria, &c

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed.

Dr Lowe, Medical Missionary in India reports (Dec 1865) that in nearly every case of Cholera in which Dr Collis Browne's Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1864—Chlorodyne is prescribed by scores of orthodox remedial practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequen fatal results have followed.

See leading article, Pharmaceutical Journal, Aug 1, v869, which states that Dr J Collis Browne was the inventor of Chlorodyni: that it is always right to use his reparation when Chlorodyne is ordered. "Dr J CoCAUTION—None genuine without the words Over whllis Browne" on the Government stamp. ottle elming medical testimony accompanies each b

Sole Manufacturer, J T DAVENPORT,
GREAT RUSSELL STREET, BLOOMSBURY, LONDON.

DIAMOND SPECTACLES

THESE SPECTACLES ARE MANUFACTURed from **"Minute Crystal Pebbles"** melted together and are called **Diamond** on account of their hardness and brilliancy.

It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye because of their polarizing light.

Having been tested with the polariscope, the diamond lenses have been found to admit 15 per cent. less heated rays than any other pebble.

They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.

Manufactured by the Spencer Optical Manufacturing Company.
For sale by responsible agents throughout the Union.

J. L. Jungerman,
JEWELER AND OPTICIAN, IS SOLE AGENT FOR VICTORIA, V. I.,

From whom they can only be obtained. No Pedlars employed.

The great demand for these spectacles has induced unscrupulous dealers to palm off an inferior and spurious article for the Diamond. Great care should be taken to see that the trade mark ◇ (which is protected by American Letters Patent), is stamped on every pair. se6

ABSOLUTELY THE BEST PROTECTION AGAINST FIRE.
